SHARE ATL Speaker Orientation Q&A

Question	Answer
I am co-presenting with another speaker. Will the handheld and wireless mics both work together?	Yes, they should be able to be used at the same time. If you have questions on-site, please feel free to confirm with the AV team.
Can I upload other artifacts beside the PDF of my presentation?	Yes, absolutely. Speakers can upload multiple documents to share with attendees if they would like.
Should the digital badge check in code info be included in the PDF uploaded to the site?	That is ok to include. SHARE will be using the honor system from attendees if the check-in code is provided in the deck prior to the start of the session.
Is recording done in the non-livestream rooms? Or we do ourselves?	Non-live-stream rooms will not be recorded.
Is there a specific QR code available for individual session evaluation?	Not for SHARE Atlanta. Attendees should use the session page from the mobile app/desktop platform to access session evaluations.
Is the eval slide available on the speaker resource page?	A SHARE Atlanta specific evaluation slide has been added to the Speaker Resource page.
Will virtual attendees be able to evaluate sessions?	Yes. Virtual attendees will also be able to submit session evaluations for sessions they virtually attend.
Are there any specific requirements for on-site connectivity?	SHARE will have a dedicated Wi-Fi network for the event: Network: SHAREAtlanta Password: Mainframe2023
